Malang, East Java

I am a 4th semester student of Information Technology major at Brawijaya University who is passionate about IT, especially in web development and cyber security. I actively seek opportunities to learn and develop my skills through small projects, online courses, bootcamps, and getting involved in campus and off-campus organizations. I am ready to contribute in teams and projects to achieve satisfactory and innovative results.

## Education

**Associate's degree Information Technology** **August 2023 - Present**

*Brawijaya University*

**GPA : 3.98**

I actively develop myself in both academic and non-academic fields. In the academic field, I focus on software development and related to machine learning. I also actively participate in various competitions, both internal and external, such as UI/UX and web development competitions. Outside of academics, I am involved in various committees that support the development of my academic field, especially in divisions such as PIT and DDM. I am also active in campus organizations.

## Skills

**Programming Language** : Javascript, PHP, Typescript, Python

**Framework** : Tailwind CSS, Vue.js, Nuxt.js, React, Laravel, Codeigniter 4

**Design Tools** : Figma, Canva

## Experience
